Highschool + 7th year specialization

Carpentry + Industrial carpentry

School: TSM | Mechelen

From: 09/2007 - 07/2014

JONAS MOONS

FULL STACK DEVELOPER

Junior full-stack developer and former quality expert in communication. Recently completed the **Le Wagon Full-Stack Developer Bootcamp**. **Enthusiastic and eager to learn**, I bring a unique blend of **technical skills** and **effective communication**. Committed to **continuous improvement** and **staying current** in the ever-evolving tech world. Excited to contribute to innovative projects and make a meaningful impact.

EXPERIENCE

Junior Full Stack Developer 6 October - 8 December 2023

Le Wagon - Full Stack Developer Bootcamp

Barcelona, Spain

Le Wagon introduced me to the coding world where I connected with diverse people and found new challenges every day. I was lucky enough that my project (**My New Meal Plan**) was created with 3 other students. The app is a project I started years ago on a few Excel files. I wanted to create my own diet. I succeeded to create a fully automatic calculating meal plan builder. But now, with the knowledge I acquired, I'm happy that we could make something real with so much more features than Excel. This is how I knew, that I love to create programs and making it flawless.

Quality Expert 21 March 2022 - 6 October 2023

T&H CUSTOMER EXPERIENCE SL (NewCo Communications)

Barcelona, Spain

Joined in March 2022 and quickly advanced to a quality expert role by December, **leading a team of six**. Enhanced my **problem-solving** skills and developed a strong appreciation for **teamwork**. Loving new challenges, I embraced a **trainer** roll as well. My diverse experience highlights **adaptability** and a **continuous willingness to learn**.

PROJECTS

My New Meal Plan

- The app is mostly build in 2 weeks.
- It's goal is so users can build their own diet with only ingredients that are chosen by them.
- In a team of 4 we created this app with Ruby on rails.
- We will continue working on it, to improve the UX and to keep adding and improving features.
